

RM2820 and RM2620 Bracket Selection

Some Dometic RM2820 and RM2620 refrigerators have factory installed RM2804/RM2604 type cooling units. These cooling units are extremely similar to the RM2820/2620 cooling units and only differ by the bracket for the gas valve **but are not interchangeable**. It is important to order the correct cooling unit for your refrigerator.

Match the gas valve bracket on your refrigerator to one of the pictures below and order one of these bracket types:

RM2820/2620 bracket

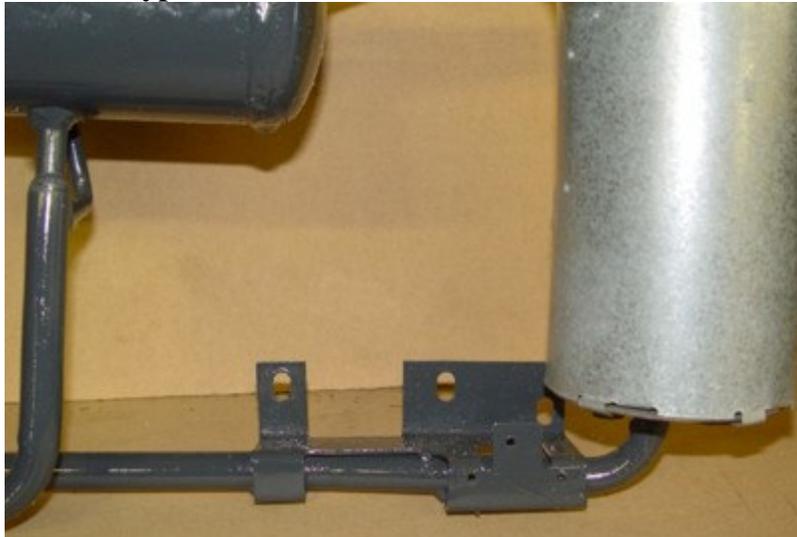

RM2804/2604 medium size bracket

RM2804/2604 small size bracket

Bracket Type RM2820/2620

Bracket Type RM2804/2604 medium bracket

Bracket Type RM2804/2604 small bracket
